## OPPOSE MAKING FISH OF ONE AND FLESH OF OTHER

U. S. Senators Favor Treating Britain and Germany Alike.

Weeks and Martine Give Views on Teutonic Situation.

BOTH ARE STRONG NEUTRALS

Neither Thinks War With the Kaiser Justifiable.

Works Says American People Do Not Want a Conquest.

BY JOHN D. WORKS,  
United States Senator from California.

Washington, April 21.—I do not believe there is adequate reason to sever diplomatic relations with Germany. If there is, it is because Germany has violated the rules of international law. The allies have done the same thing. Therefore, if we do sever diplomatic relations with Germany, we should at the same time sever diplomatic relations with the allies as well. If we do not, we will establish clearly our neutrality.

I do not believe the congress of the United States will be willing to declare war against Germany or any other belligerent nations for anything that has been done by them or by either of them up to this time. Nor do I believe that the people of this country want war with any other nation on any such account.

And neither do I believe that congress would declare in favor of war with Germany if the president should sever diplomatic relations with that country. What Germany might do in that case, I do not know.

BY JAMES E. MARTINE,  
United States Senator from New Jersey.

Washington, April 21.—I feel that we might justly demand that Germany should be treated with as much force and right as we have pressed them on Germany.

Great Britain has violated international understandings and laws that were supposed to govern nations on the high seas. Hence, I feel that we should not make fish of one and fowl of the other.

Of course, I realize that in submarine attacks Great Britain has not been as active as Germany. But Germany has been ordered to have been brought to an understanding with the United States.

I feel that it is not fair to hold Germany to a strict accountability and ignore Great Britain. I have no claims as an expert, but manifestly the conditions would justify us in insisting upon a plain understanding with Great Britain as we now demand with Germany.

I do not think the severance of diplomatic relations would result in war. It has generally led to have not believe this necessarily should be the case.

Has Faith in Germans.  
I have so much faith in the intelligence and honesty of the German people that I believe they will realize the unfairness of their position and that our difference will be harmonized without strife or bloodshed.

God knows I do not want war and it will be the last of my thoughts and voice to bring it about.

I think the senate would be averse to declaring war. I feel they would believe that conditions have to be much more aggravated than at present before declaring war.

War would mean primarily the severance of so many ties of friendship by which we are bound to foreign lands and the breaking and bleeding of hearts; the sacrifice of myriads of lives and millions of treasure; the stagnation of every industry in our land and the prostration that necessarily would follow the great accumulation of debts that must necessarily ensue. All would combine a picture of horrors too sad to contemplate. I do not feel the country would justify the congress in going to war with Germany for the present reasons.

Addressed the Rev. George M. Geisel, Canon of Grace Cathedral, closing the Chapter.

Horses and Hay.  
"Never look a gift horse in the mouth."  
"No," replied Farmer Cornsloss; "considerin' the cost of feed, mebbe 't'd be better not to accept the horse in the first place."—Washington Star.

## SNAP SHOTS

AT HOME NEWS.

The faculty of the Topeka high school will have their annual picnic May 5.

Teachers from several Kansas schools visited the high school today. Among the visitors was Alex Spencer of the Kansas City, Kan., high school. The annual high school tennis tournament will be held soon. At a pep meeting for tennis this afternoon the entries for the tournament were closed. Over thirty will participate in the tournament.

The Woman's Benefit association of the Macabees, No. 26, was entertained this afternoon by Mrs. Mary Sipes, 715 Western avenue. The state commander was present, and members and friends attended.

Praternal Aid Union No. 1202 met at the home of the president, Carrie Peterson, at 514 Monroe street, Thursday evening. Ice cream, cake, punch and candy were served. Forty-four guests attended and spent the evening playing games.

Miss Esther Ross, who will graduate in the June class at Washburn college, has been appointed teacher of English and German at Onaga, Kan., next year. Miss Ross is the daughter of A. J. Ross, pastor of the First German M. E. church.

E. C. Kitching, formerly traveling freight agent for the Santa Fe, with headquarters in Topeka, now general agent for the company at Atchison, has been elected president of the Atchison Sunday Athletic association. The object of the association is to get up a series of amateur baseball games.

Report was received today that the quarantine for diphtheria under which the home of Professor A. J. Stout was placed has been lifted, and the house will be fumigated today. Mrs. Stout has practically recovered from her illness and is convalescing nicely. Professor Stout was placed in quarantine nearly two weeks ago as a result of his wife's illness.

Mr. and Mrs. William Tilton of Cambridge, Mass., arrived in Topeka today for a survey of conditions resulting from prohibition. They are touring the country in this work. Mrs. Tilton is chairman of the Massachusetts poster campaign against prohibition and also a member of the editorial staff of the Survey and is preparing a series of magazine articles on prohibition.

Topeka will have an opportunity to hear Louis Gravelle, the Chicago baritone, after all. Mr. Gravelle will appear in concert Tuesday night, May 1. Gravelle was to have appeared here with the Minneapolis Symphony orchestra and was to sing one of the principal parts in the production of "Hiawatha." However, he became ill while in Omaha and was obliged to go to a hospital.

Excitement reigned at high school as the students in the six classes which Harry Evans, colored boy, attended while ill and convalescing, were ordered to show their vaccinated scars or leave school to be vaccinated. One hundred and fifty students were examined by Assistant Principal Coppedge and Miss Laura Ewing. A large percentage were forced to leave and told to return until they could show a vaccination certificate.

A good sized army of school children were enlisted in the clean-up campaign now being waged by city and state health authorities when the bulletin entitled "Clean Up" was handed out to more than 6,000 school children. Each of the twenty-four schools in the city received enough bulletins for its entire enrollment and today the children are in possession of and are busy with the work they are expected to assist in making Topeka a spotless town.

Charging her husband with abuse, beating, cursing and threatening her life and finally making a gun play with artillery of large calibre, Tribula Rutherford, 1318 North Madison street, late this afternoon filed a bill for separate maintenance in the county court against her husband, Louis. As if this were not enough the petition winds up by stating that he finally beat and cursed her so that she was forced to leave home. She asks that \$25 a month be allowed her for maintenance.

Blast Canada Plants.

New York, April 21.—A man described as Harry L. Newton, an expert mechanic and a native born American has been arrested by the police, who declared that he had entered into an agreement with a supposed German, in reality a detective, to blow up a munitions plant at Dunkirk, New York, and had offered to do other work of similar character. Newton agreed to do the job, the detectives said, for \$5,000.

John D. Discards His \$30,000 Device as Too Expensive a Toy.

Tarrytown, N. Y., April 21.—John D. Rockefeller, after spending \$30,000 for a model ice plant with the idea of supplying all his needs, has decided to quit the business. It was rumored about Pocantico Hills today that the high cost of gasoline to run his engine hastened the closing of the plant, producing 1,500 pounds of ice a day, which can be bought in the market for about \$3.

It cost Mr. Rockefeller, in addition to the price of gasoline, the services of a night and day man and the expense of maintenance. He was paying about four times the usual price for it.

## EASTER WITH MASONS

Relight the Candles and Open the Chapter Sunday Morning.

Five hundred members of the Rose Croix order of Scottish Rite Masons held their Maundy Thursday ceremonies last night at Masonic Hall. The ceremony is symbolic of The Last Supper.

On Easter they will assemble again, relight the candles and open the chapter. Until then it will remain in darkness, symbolizing the passing of the brethren from this life. The program last night follows:

Music—Scottish Rite Choir.  
Story of the Cross—Elmer D. Strain.  
Extinguishing the Lights—Ceremony by Officers.  
Address—The Rev. George M. Geisel, Canon of Grace Cathedral.  
Music—Scottish Rite Choir, closing the Chapter.

Horses and Hay.

"Never look a gift horse in the mouth."  
"No," replied Farmer Cornsloss; "considerin' the cost of feed, mebbe 't'd be better not to accept the horse in the first place."—Washington Star.

## BLAMES GERMANS

New Yorker Accuses Them of Stirring Up Mexicans.

He Says No. 60 Wall St. Is Backing Villa and Diaz.

WASHINGTON KNOWS IT, TOO

That's Why Wilson Took U-Boat Issue Before Congress.

Mexican Agents of Captain von Papen Are Still at Work.

New York, April 21.—"German money is responsible for the Mexican ferment. The German propagandists of No. 60 Wall street are behind both Villa and Diaz. I feel that it is Germany's hand in Mexico striking at the United States, which prompted President Wilson to go before congress."

This statement was made today by Ralph James M. Bullowa, of 19 Broadway. Mr. Bullowa is counsel for several neutral steamship companies, including the Norwegian-American and the Elder-Dempster line, which owns the Appam, seized by the Germans and brought as a prize to Newport News.

Mr. Bullowa was one of the most important witnesses for this government at the trial of Dr. Karl Buehrer and other Hamburg-American officials, convicted of conspiracy to defraud the United States through false manifests.

Proof on Von Papen.

"The United States government is not wanting in proof that Captain von Papen and Captain Boy-Ed were mixed up in a movement to arouse Mexico against us and thus divert our attention, both diplomatic and military," he continued. "Boy-Ed for a time was attached to the German legation in Mexico. Von Papen has been very active in Mexico."

"What is still more to the point, Captain von Papen has had a man at No. 60 Wall street who is believed to have charge of a revolution against Carranza. He has been working through a German consul at a certain Mexican port and it is said that the money for the Mexican insurrectionists can be traced through these two men."

"I may say that the No. 60 Wall street agent has been the promoter of a large projectile factory in Connecticut. Still more recently, he sent a ship to Mexico laden with naval stores, which was seized and searched by a British warship."

Germans Deceive Us.

"I have also affidavits and other documentary evidence to prove that representatives of the German government have deceived us in other matters of just as serious a character."

When asked the names of the alleged Mexican agent of Captain von Papen and the German consul through whom he was said to work, Mr. Bullowa furnished them and said:

"The United States government is in possession of this information and it is for the federal officials to make these names public."

"In fact, the government has obtained a great many more facts regarding the Mexican and German situation than it has revealed."

"Why has the United States suddenly taken the offensive and on the heels of serious developments in Mexico had Captain von Papen indicted? The underlying reason is that the federal authorities have discovered that the German government has been deceiving us not only with her submarines, but her Mexican insurrectionists."
